

What VacBoss Customers are Saying!

VacBoss™

with

BlowerGard™

Filtration is the world's first and only industrial grain vac featuring a 5-Year / 2,500 Hour Abrasion-Free Blower Warranty!

Because of the exclusive technology found in BlowerGard™ Filtration, wear to the blower caused by incoming abrasive dust is virtually eliminated. This technology allows us to offer an outstanding warranty program which is unprecedented in the industry - 5-Year / 2,500 Hour Abrasion-Free Blower Limited Warranty. Please contact us for full details.

"We found the 5-Year Blower Warranty extremely attractive. Our tests showed, the VacBoss' grain handling damage was significantly lower and capacities much higher than other vacs we've owned."

- Mark Grundmayer, Producers Hybrids

"The primary reason I purchased a VacBoss is because of its blower warranty. In my custom trucking business, I can now rent out my vac without worrying about blower damage – even when conveying millions of bushels annually.

The VacBoss itself is easy for my customers to use.

I personally have years of experience working with Christianson and feel comfortable with their high quality products and service."

- Mike Glisczinski, Glisczinski Farms

"My local VacBoss distributor's excellent service and support is the primary reason I choose this vac. The blower warranty is very important at our operation where we handle millions of bushels of dusty soybeans and milo every year."

- Dan Olson, Midland Co-Op

"We upgraded to a VacBoss because our old grain vac had severe capacity loss and we would've had to replace the blower. We use our vac on a daily basis and knew the VacBoss was built to last."

- Joe Hennen, Co-Op Country Farmers Elevator

* Certain restrictions and conditions apply, two year mechanical warranty applies.
